Specification

Allowable Subject Matter

2. Claims 1-15, 17-21, 23-36 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-15, 17-21, 23-36 are allowable over the prior art of record. The prior art fails to teach or suggest:

send a test transmission on the second frequency channel, and monitor the first frequency channel to detect the presence of another one of the one or more repeaters operating on the second frequency channel being tested; and/or

the selecting the second frequency channel further includes monitoring the second frequency channel for the first level of activity and monitoring the first frequency channel for a second level of activity and comparing the first level of activity and the second level of activity to determine if transmissions on a pre-selected repeater channel is a transmission from another one of the one or more repeaters using the first frequency channel and the second frequency channel and disqualifying the second frequency channel as a valid repeater channel if the transmission are determined to be transmissions from the another one.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
